Supportive Housing Program:

SHP has eighteen dedicated transitional housing beds at the Boccardo Regional Reception Center that are provided to house mentally ill homeless adult, and older adult individuals that the Department of Mental Health (MHD) refers to HomeFirst.

The Supportive Housing Program (SHP) provides case management and other support services to these clients to enable them to obtain the skills and income needed to move into stable housing and maintain their unit in a way that satisfies health, safety and quality standards.

Clients are eligible for SHP through referrals provided by the Mental Health Department's 24 Hour Care. All Call Center referrals will be connected to Outpatient Services. These mentally ill clients will either be recipients of SSI or have already applied for SSI and will have a level of functioning, symptoms, and psychiatric history that necessitate service intervention to maintain their housing in a community setting.

COUNTY SUPPLEMENTAL SERVICES PROGRAM: BOARD AND CARE

The State Department of Mental Health allocated funds to specified licensed board and care homes for very difficult-to-place clients who required more supervision and focused care, in order to maintain living in the community. These beds are assigned through the case managers on the County Mental Health Service Teams in conjunction with the 24 Hour Care Unit of the Santa Clara County Mental Health Department (see Appendix G of this guide for a current listing of service teams). The service teams have access to all housing listings, supplemental rates, and board and care beds. If your family member or client has been assigned to a Santa Clara County mental health service team then contact the service team and find the team case manager who will have access to current housing in the county.

To inquire about or initiate County Mental Health services, call **1-800-704-0900**.
