

SCRIPT:

My name is (NAME) I am calling to request that the State not take the ERAF funds that are supposed to be allocated to Santa Clara County and other Bay Area counties.

We use these funds to pay for services for childcare, immigrants, and mental health services just to name a few. These and other safety net programs that are desperately needed by our disadvantaged communities will be eliminated without these funds.

Please stand with our community so we can protect our most vulnerable residents.

Thank you.
